Subject index

Alkali hydroxides
Chemical and electrochemical behaviour in molten alkali hydroxides. Part IV. Chromium species in an acidic NaOH + KOH eutectic mixture (Saïb et al.) 95
Amino complexes
Interfacial phase transfer of amino-complexed Ni(II) cations. A model for solvent extraction of transition metals (Baruzzi, Wendt) 19
Amphiphilic ferrocene derivatives
Electrodes modified with Nafion films incorporating amphiphilic ferrocene derivatives (Garcia, Kaifer) 79
Ascorbic acid
The oxidation of ascorbic acid at carbon paste electrodes. Modified response following contact with surfactant, lipid and brain tissue (Ormonde, O'Neill) 109
ATP anions
Electrochemical behaviour of polypyrrole films doped with ATP anions (Boyle et al.) 179

Brain tissue
The oxidation of ascorbic acid at carbon paste electrodes. Modified response following contact with surfactant, lipid and brain tissue (Ormonde, O'Neill) 109

Cadmium
Effect of the temperature on the response characteristics of ISEs constituted by silver(I) sulphide + copper(II) or cadmium(II) sulphide mixtures applied to electrically conductive epoxy supports (Vasconcelos, Machado) 43
Carbon paste electrodes
The oxidation of ascorbic acid at carbon paste electrodes. Modified response following contact with surfactant, lipid and brain tissue (Ormonde, O'Neill) 109
Chloride ions
In situ photocalorimetry using pyroelectric detection at semiconductor thin-film electrodes. Photoanodic oxidation of chloride ions at a passive film on titanium in acidic solution (Rappich et al.) 123

Chromium
Chemical and electrochemical behaviour in molten alkali hydroxides. Part IV. Chromium species in an acidic NaOH + KOH eutectic mixture (Saïb et al.) 95
Copper
Effect of the temperature on the response characteristics of ISEs constituted by silver(I) sulphide + copper(II) or cadmium(II) sulphide mixtures applied to electrically conductive epoxy supports (Vasconcelos, Machado) 43

Dansylglycinate anion
Phase transition in the adsorption process of *N*-dansylglycinate anion on mercury (Benedetti et al.) 321
Dialkylanilines
Electrochemical generation of excited TICT states. Part I (Kapturkiewicz et al.) 55
Dimethylformamide
Double layer effects in the kinetics of electroreduction of zinc(II) at mercury in dimethylformamide and dimethylsulfoxide solutions (Fawcett, Lasia) 243
Dimethylsulfoxide
Double layer effects in the kinetics of electroreduction of zinc(II) at mercury in dimethylformamide and dimethylsulfoxide solutions (Fawcett, Lasia) 243

Electrodeposition
Electrochemical behaviour of an electrodeposited iridium electrode in acid solution (Čukman, Vuković) 283
Electrochemical behaviour of an electrodeposited rhodium electrode in alkaline solution (Čukman, Vuković) 273
Electrode processes
Evaluation of solvation numbers and reaction orders for electrode processes of metal ions in non-aqueous media (Maksymiuk et al.) 1
Epoxy supports
Effect of the temperature on the response characteristics of ISEs constituted by silver(I) sulphide + copper(II) or cadmium(II) sulphide mixtures applied to electrically conductive epoxy supports (Vasconcelos, Machado) 43

Ferrocene derivatives
Electrodes modified with Nafion films incorporating amphiphilic ferrocene derivatives (Garcia, Kaifer) 79
FTIR techniques
A study of the electro-oxidation of methanol on platinum 1 M Na_2SO_4 by electrochemical and in-situ FTIR techniques (Mundy et al.) 257

Grahame–Parsons model
Application of the Grahame–Parsons model of the inner layer to the simultaneous adsorption of iodide and thiocyanate ions on mercury (Rocha-Filho et al.) 315
Graphite electrode
Electrochemistry at a pyrolytic graphite electrode. Study of the adsorption of hemin (Bianco et al.) 305

Hemin
Electrochemistry at a pyrolytic graphite electrode. Study of the adsorption of hemin (Bianco et al.) 305

Iodide ions
Application of the Grahame–Parsons model of the inner layer to the simultaneous adsorption of iodide and thiocyanate ions on mercury (Rocha-Filho et al.) 315
Ion-exchange membrane electrodes
Selectivity coefficients of univalent cations for liquid ion-exchange membrane electrodes based on nitrobenzene (Šustáček, Šenkýř) 31
Ion-exchange polymers
Surface functionalization with oxometallates entrapped in polymeric matrices. Part 2. Substituted pyrrole-based ion-exchange polymers (Keita et al.) 187
Ion selective electrodes
Effect of the temperature on the response characteristics of ISEs constituted by silver(I) sulphide + copper(II) or cadmium(II) sulphide mixtures applied to electrically conductive epoxy supports (Vasconcelos, Machado) 43
Iridium
Electrochemical behaviour of an electrodeposited iridium electrode in acid solution (Čukman, Vuković) 283
Iron spinel oxide
A new electrochemical synthesis of iron spinel oxide in LiOH (Matsumoto et al.) 331

Lipid
The oxidation of ascorbic acid at carbon paste electrodes. Modified response following contact with surfactant, lipid and brain tissue (Ormonde, O'Neill) 109

Lithium hydroxide
A new electrochemical synthesis of iron spinel oxide in LiOH (Matsumoto et al.) 331

Membrane electrodes
Selectivity coefficients of univalent cations for liquid ion-exchange membrane electrodes based on nitrobenzene (Šustáček, Šenkýř) 31
Mercury
Application of the Grahame–Parsons model of the inner layer to the simultaneous adsorption of iodide and thiocyanate ions on mercury (Rocha-Filho et al.) 315
Double layer effects in the kinetics of electroreduction of zinc(II) at mercury in dimethylformamide and dimethylsulfoxide solutions (Fawcett, Lasia) 243
Phase transition in the adsorption process of *N*-dansylglycinate anion on mercury (Benedetti et al.) 321
Metal ions
Evaluation of solvation numbers and reaction orders for electrode processes of metal ions in non-aqueous media (Masymiuk et al.) 1
Metalloporphyrin
Electrochemical reduction of oxygen by metalloporphyrin ion-complexes with heat treatment (Sawaguchi et al.) 219
Metal tetrasulphonato-phthalocyanines
Spectroscopic measurements on metal tetrasulphonato-phthalocyanines (Elzing et al.) 137
Methanol
A study of the electro-oxidation of methanol on platinum 1 M Na_2SO_4 by electrochemical and in-situ FTIR techniques (Mundy et al.) 257

Nafion
Electrodes modified with Nafion films incorporating amphiphilic ferrocene derivatives (Garcia, Kaifer) 79
Nickel
Interfacial phase transfer of amino-complexed Ni(II) cations. A model for solvent extraction of transition metals (Baruzzi, Wendt) 19
Nitrobenzene
Selectivity coefficients of univalent cations for liquid ion-exchange membrane electrodes based on nitrobenzene (Šustáček, Šenkýř) 31
Nitrones
Spin trapping in electrochemical conditions: are nitrones well suited for spin marking in reductive weakly acidic media? On the cathodic behaviour of tert-butylphenylnitrone in the presence of a proton donor (Simonet et al.) 205

Oxometallates
Surface functionalization with oxometallates entrapped in polymeric matrices. Part 2. Substituted pyrrole-based ion-exchange polymers (Keita et al.) 187
Oxygen
Electrochemical reduction of oxygen by metalloporphyrin ion-complexes with heat treatment (Sawaguchi et al.) 219
Mechanism and kinetics of oxygen reduction on steel (Wroblowa, Qaderi) 231

Phase transition
Phase transition in the adsorption process of *N*-dansylglycinate anion on mercury (Benedetti et al.) 321
Phthalocyanines
Spectroscopic measurements on metal tetrasulphonato-phthalocyanines (Elzing et al.) 137
Platinum
Nature and effects of sulphur adsorbed on platinum in acid medium. An investigation using UV–visible reflectance spectroscopy (Lamy-Pitara et al.) 291
A study of the electro-oxidation of methanol on platinum 1 M Na_2SO_4 by electrochemical and in-situ FTIR techniques (Mundy et al.) 257
Polyaniline
Evidence of two kinds of spin in polyaniline from in situ EPR and electrochemistry. Influence of the electrolyte composition (Lapkowski, Geniès) 157
Temperature dependence of the voltammetric response of polyaniline film electrodes (Inzelt) 169
Polymeric matrices
Surface functionalization with oxometallates entrapped in polymeric matrices. Part 2. Substituted pyrrole-based ion-exchange polymers (Keita et al.) 187
Polypyrrole
Electrochemical behaviour of polypyrrole films doped with ATP anions (Boyle et al.) 179
Pyroelectric detection
In situ photocalorimetry using pyroelectric detection at semiconductor thin-film electrodes. Photoanodic oxidation of chloride ions at a passive film on titanium in acidic solution (Rappich et al.) 123
Pyrolytic graphite electrode
Electrochemistry at a pyrolytic graphite electrode. Study of the adsorption of hemin (Bianco et al.) 305

Pyrrole
Surface functionalization with oxometallates entrapped in polymeric matrices. Part 2. Substituted pyrrole-based ion-exchange polymers (Keita et al.) 187

Quasi-fractal electrodes
Experimental study of the impedance of blocking quasi-fractal and rough electrodes (Chassaing et al.) 67

Reaction orders
Evaluation of solvation numbers and reaction orders for electrode processes of metal ions in non-aqueous media (Masymiuk et al.) 1
Rhodium
Electrochemical behaviour of an electrodeposited rhodium electrode in alkaline solution (Čukman, Vuković) 273
Rough electrodes
Experimental study of the impedance of blocking quasi-fractal and rough electrodes (Chassaing et al.) 67

Selectivity coefficients
Selectivity coefficients of univalent cations for liquid ion-exchange membrane electrodes based on nitrobenzene (Šustáček, Šenkýř) 31
Semiconductor thin-film electrodes
In situ photocalorimetry using pyroelectric detection at semiconductor thin-film electrodes. Photoanodic oxidation of chloride ions at a passive film on titanium in acidic solution (Rappich et al.) 123
Silver
Effect of the temperature on the response characteristics of ISEs constituted by silver(I) sulphide + copper(II) or cadmium(II) sulphide mixtures applied to electrically conductive epoxy supports (Vasconcelos, Machado) 43
Sodium sulphate
A study of the electro-oxidation of methanol on platinum 1 M Na_2SO_4 by electrochemical and in-situ FTIR techniques (Mundy et al.) 257
Solvation numbers
Evaluation of solvation numbers and reaction orders for electrode processes of metal ions in non-aqueous media (Maksymiuk et al.) 1
Solvent extraction
Interfacial phase transfer of amino-complexed Ni(II) cations. A model for solvent extraction of transition metals (Baruzzi, Wendt) 19
Spin
Evidence of two kinds of spin in polyaniline from in situ EPR and electrochemistry. In-

fluence of the electrolyte composition (Lapkowski, Geniès) 157
Spin trapping in electrochemical conditions: are nitrones well suited for spin marking in reductive weakly acidic media? On the cathodic behaviour of tert-butylphenylnitrone in the presence of a proton donor (Simonet et al.) 205

Steel
Mechanism and kinetics of oxygen reduction on steel)Wroblowa, Qaderi) 231

Sulphide mixtures
Effect of the temperature on the response characteristics of ISEs constituted by silver(I) sulphide + copper(II) or cadmium(II) sulphide mixtures applied to electrically conductive epoxy supports (Vasconcelos, Machado) 43

Sulphur
Nature and effects of sulphur adsorbed on platinum in acid medium. An investigation using UV visible reflectance spectroscopy (Lamy-Pitara et al.) 291

Surfactant
The oxidation of ascorbic acid at carbon paste electrodes. Modified response following contact with surfactant, lipid and brain tissue (Ormonde, O'Neill) 109

Tert-butylphenylnitrone
Spin trapping in electrochemical conditions: are nitrones well suited for spin marking in reductive weakly acidic media? On the cathodic behaviour of tert-butylphenylnitrone in the presence of a proton donor (Simonet et al.) 205

Tetrasulphonato-phthalocyanines
Spectroscopic measurements on metal tetrasulphonato-phthalocyanines (Elzing et al.) 137

Thiocyanate ions
Application of the Grahame–Parsons model of the inner layer to the simultaneous adsorption of iodide and thiocyanate ions on mercury (Rocha-Filho et al.) 315

Titanium
In situ photocalorimetry using pyroelectric detection at semiconductor thin-film electrodes. Photoanodic oxidation of chloride ions at a passive film on titanium in acidic solution (Rappich et al.) 123

Transition metals
Interfacial phase transfer of amino-complexed Ni(II) cations. A model for solvent extraction of transition metals (Baruzzi, Wendt) 19

Twisted intramolecular charge transfer
Electrochemical generation of excited TICT states. Part I (Kapturkiewicz et al.) 55

Univalent cations
Selectivity coefficients of univalent cations for liquid ion-exchange membrane electrodes based on nitrobenzene (Šustáček, Šenkýř) 31

Zinc
Double layer effects in the kinetics of electroreduction of zinc(II) at mercury in dimethylformamide and dimethylsulfoxide solutions (Fawcett, Lasia) 243
